BURST BLOCK
Follow diagrams to make block

1.
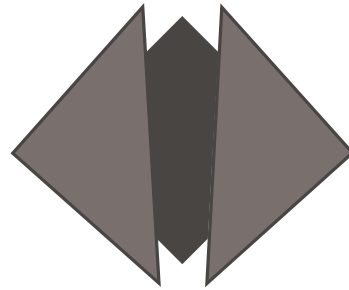

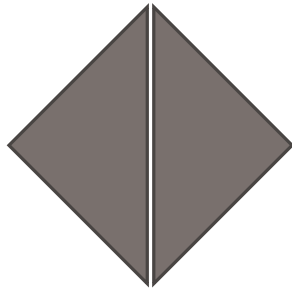

start with two 10x10 squares, using the template cut the 3 shapes from one square and cut the other square diagonally

2.

use the single dot line trim for new wedge

flip template over & repeat cutting on other side

3.

align the triangles like they were cut from the template

use the double dot line trim for new wedge

flip template over & repeat cutting on other side

4.

use the triple dot line trim for new wedge

flip template over & repeat cutting on other side

5.

use 90 degree markings only to trim all 4 sides to square

flip template over & repeat cutting on other side
